

## **Jim Rae & Warren Whitehead Join PlantForm Board.**

**Guelph, ON (April 29, 2009)** – M Dr. Mark Goldberg, Chairman of PlantForm Corporation, and Dr. Don Stewart, Chief Executive Officer, are pleased to announce that Mr. James M.Rae and Mr. Warren Whitehead have joined the Board of Directors.

Mr. Rae brings more than 30 years of experience in the manufacturing, marketing, financial, human resource and R&D operations of pharmaceutical and biotechnology firms. He has considerable experience in fund-raising/financing from public, private and government sectors, and in deal-making with multi-national companies. He held various positions ranging from Marketing Manager to President and CEO at Searle Pharma (1969-1988) and Cangene Corporation (1988-1996). Currently and since 1996, as President of Remedis Consulting, he has provided strategic and hands-on restructuring and financing of health care businesses, including numerous biotechnology companies such as Cytochroma, Resolution Pharmaceuticals Inc. and Vaxis Therapeutics. Mr. Rae currently serves as CEO of Viron Corporation, Chairman of Queen's University Scientific Breakthrough Fund, and as Executive Director of Elastin Specialties Inc. He holds Board seats in several Canadian biotechnology companies.

Mr. Whitehead has considerable experience in the financial operations of pharmaceutical and biotechnology firms. He is the former CFO of Arius Research Inc., an anti-cancer antibody company (acquired by Roche, 2008), and former CFO of Labopharm Inc.(2000-2006) where he lead several rounds of financing including a cross-border NASDAQ offering. Prior to Labopharm Inc. he was CFO of Resolution Pharmaceuticals Inc. and managed its' sale to Bracco SpA. He held prior positions in finance and business development at Glaxo Canada (now GlaxoSmithKline).

In their Board roles, Mr. Rae and Mr. Whitehead will help direct PlantForm as it attains funding and delivers to international markets plant-derived biosimilar versions of therapeutic drugs. PlantForm is a new company focused on providing low cost therapeutic drugs for the improvement of quality of life. The company is in a capital recruitment phase.
